Head & Neck Cancer Symposium

July 25, 2024
12:30-4:00 pm MT

Sue Yom, MD
Symposium Chair
University of California, San Francisco

Mitchell Machtay, MD
Symposium Chair
Penn State University

Jamie Ku, MD
Cleveland Clinic
“Common acute complications of head and neck surgery”

Trisha Wise-Draper, MD, PhD
University of Cincinnati
“A practical review of pros and cons of cisplatin dosing schedules”

Luana Sousa, MD
MD Anderson Cancer Center
“Evidence-based review of antiemetic & hydration interventions”

Beth Beadle, MD
Stanford University
“Anticipating & managing acute toxicities of radiation combinations with novel therapies”
Loren Mell, MD  
*University of California, San Diego*  
“Evidence-based management protocols for frail, elderly, & cisplatin-ineligible patients”

Greta Macaire, MA, RD  
*University of California, San Francisco*  
“Review of feeding tube practices & practical dietary management & expectations”

Jeffrey Shoop & Sonya Sotinsky  
*Head & Neck Cancer Patient Advocates*  
“Panel from the patient’s perspective: Unmet needs and best bets for the future”

Michael Samuels, MD  
*Banner MD Anderson Cancer Center*  
“Accurate grading of acute & late toxicities when patients are on clinical trials - How this will help you in routine practice”

Stuart Wong, MD  
*Medical College of Wisconsin*  
“Addressing toxicities of novel therapies during adjuvant/maintenance phase and survivorship”

Kate Hutcheson, MD  
*MD Anderson Cancer Center*  
“How do we evaluate & make swallowing better: Best prediction & management algorithms for dysphagia”

Evan Graboyes, MD  
*Medical University of South Carolina*  
“How to design informative, rigorous, patient-centered research into long-term survivorship needs”
