Veterans Affairs (VA) – Military Treatment Facilities (MTF) Subcommittee – navigating the waters

VA Lung Precision Oncology Program (**LPOP**) –screening, clinical trials, precision oncology

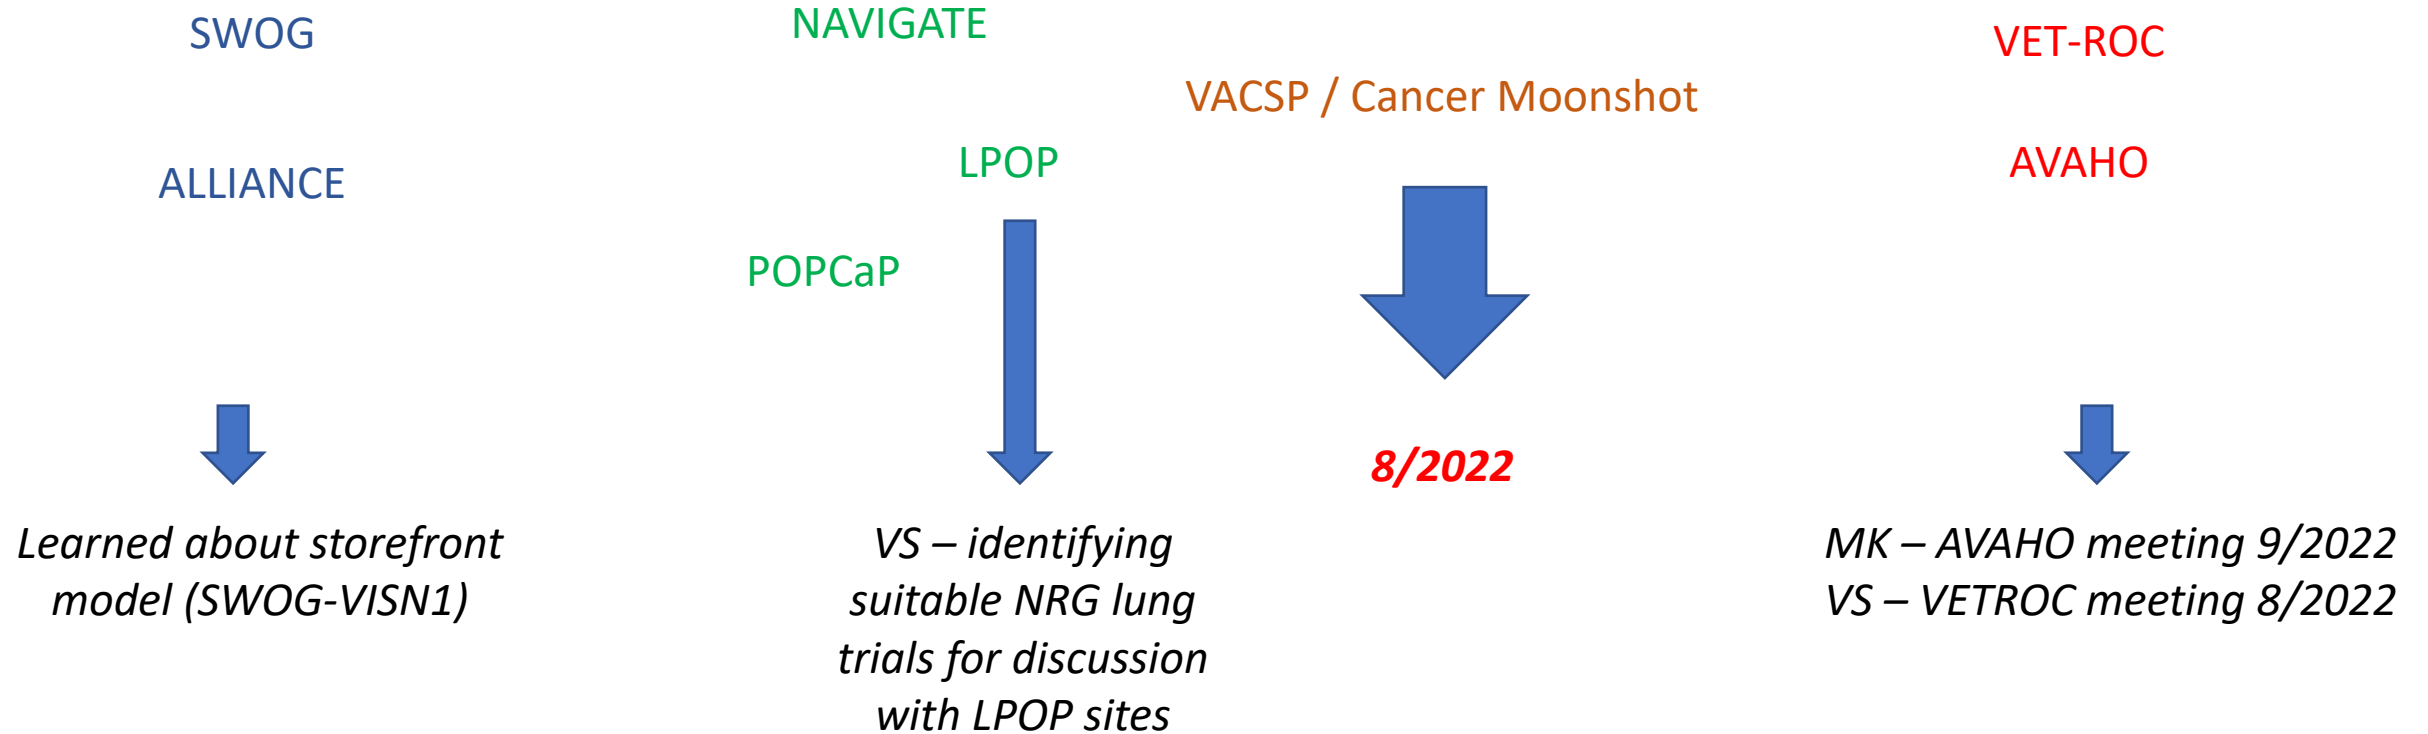

VA Precision Oncology Program for Cancer of the Prostate (**POPCaP**) –precision oncology

NAVIGATE - National Cancer Institute (NCI) and the Department of Veterans Affairs (VA) to facilitate enrollment of veterans with cancer into NCI-funded clinical trials

VA Cooperative Studies Program (CSP) – Division of VA R&D responsible for multicenter trial development and implementation

Network of Dedicated Enrollment Sites (NODES) is a consortium of VA medical centers that have teams, nodes, in place dedicated to conducting CSP studies to enhance the overall performance, compliance, and management of CSP multi-site research

Veterans Affairs (VA) – Military Treatment Facilities (MTF) Subcommittee – *navigating the waters*

Veterans Affairs (VA) – Military Treatment Facilities (MTF) Subcommittee

2022 GOALS

1. Develop a roster of VA – MTF clinicians and investigators with persistent interest in trial development and implementation
 - a- Identify VA – MTF investigators for disease specific groups within NRG
 - b- Identify suitable Radiation Oncology investigator for de-centralized VA clinical trial (storefront model)
2. Develop lines of communication with VA R&D for centralized regulatory support and oversight
3. Identify funding mechanisms to support Clinical Research Coordinator FTE for VA & MTF facilities
4. Identify 1-2 suitable lung trials to propagate through LPOP
