

NRG Educational Conference

Clinical Trial Enrollment: Challenges for the Future

Purpose : To review factors that influence clinical trial enrollment from multiple perspectives and to propose interventions to improve clinical trial accruals

**Saturday,
July 12, 2014
8:00 –10:00**

Please register online
when registering for the
NRG meeting or on site
at the NRG registration
desk.

CME credits pending

Learning Objectives:

- * To differentiate between modifiable and non modifiable barriers to clinical trial enrollment
- * To identify specific interventions focused on improving clinical trial enrollment
- * To make recommendations for next steps required to improve clinical trial enrollment overall and in special populations

Chair:

**Sandra E. Brooks,
MD, MBA
