

Translational Science Lung Cancer Subcommittee Agenda

Date: Friday, July 17, 2015
Start/End Time: 4:00 pm – 6:00 pm
Chairs: Bo Lu, MD

- | | |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4:00 – 4:05 | Introduction and Welcome
(Bo Lu, MD) |
| 4:05 – 4:20 | “Retrospective Digital Microscopy including Proximity Ligation Assay
- A New Approach to EGFR Pathway Assessment in Archival Tissues:
A Proposal to Access and Evaluate RTOG 0617 Archival Tissue”
(Anthony Magliocco, MD) |
| 4:20 – 4:35 | “Role 3q Driver Genes in the Response of NSCLC to Radiotherapy”
(Albert Attia, MD) |
| 4:35 – 5:05 | “Immunosequencing: Generating a Potential New Class of Diagnostics”
(Sharon Benzeno, PhD, MBA) |
| 5:05 – 5:25 | “Broad Assessment of Treatment – Modulated Adaptive Immunity”
(Lawrence Fong, MD) |
| 5:25 – 5:40 | “MRTB Working Groups, Project Teams, NExT and CTEP Activities”
(Mansoor Ahmed, PhD) |
| 5:40 – 5:55 | “Translational Potential of TGF Beta Inhibitors: NSCLC Preclinical
Studies”
(Mary Helen Barcellos-Hoff, PhD) |
| 5:55 – 6:00 | Conclusion and Adjournment
(Bo Lu, MD) |
