RE: PROTOCOL GOG-0186H – TERMINATION

Protocol Title: A Randomized Phase II Evaluation of Weekly Paclitaxel (NSC# 673089) versus Weekly Paclitaxel with Oncolytic Reovirus (Reolysin NSC # 729968, BB-IND #13370) in the Treatment of Recurrent or Persistent Ovarian, Fallopian Tube or Primary Peritoneal Cancer

NCI Version Date: July 7, 2016

Study Chair: David Cohn, MD; email: david.cohn@osumc.edu

Per the action of the NRG Oncology Gynecologic Cancer Committee, GOG-0186H was terminated effective July 17, 2020.

All data collection is complete and the trial may be closed with your IRB.
