

Printing Biospecimen Transmittal PDFs from Rave

Please note an effort is underway to clarify how to obtain a Biospecimen Transmittal PDF for submission to the NRG Oncology Biospecimen Bank. The “PDF Receipt” link at the top of the page is being replaced on many studies with a link to the “Biospecimen Transmittal Form PDF” (pictured below). After completing the form in Rave, the “Biospecimen Transmittal Form PDF” link can be used to generate a single page PDF for submission to the NRG Oncology Biospecimen Bank. Please contact Support if you need assistance (support@nrgoncology.org).

Biospecimen Transmittal Form PDF

Please complete this form in Rave. Once saved, the “Biospecimen Transmittal Form PDF” field will populate a link to the Biospecimen Transmittal PDF document. Please click the link to print a copy of this PDF that’s required to be sent to the lab along with the biospecimens.
